# California 911 System

CA 911 Outages		
Northern California	Central California	Southern California
No 911 Outages	No 911 Outages	No 911 Outages

## 911 Outages/Remote/Community Isolations:

### ALI Outage, Affecting Multiple Public Safety Answering Points(PSAPs) – Southern Region (Final)

On 06/24/18 at 1719 hours, CA 911 Branch advised the California State Warning Center (CSWC) that seven PSAPs had no ALI.

- ALI is location information associated with a 9-1-1 call.
- Affected PSAPs included:
  - Barstow CHP
  - UC Santa Barbara PD
  - Upland PD
  - Walnut Sheriff
  - Mono County Sheriff
  - Pico Rivera Sheriffs Office
  - Santa Barbara PD
- Verizon isolated and repaired the faulty T-1 line.
- All PSAPs are restored with ALI
- Successful test calls were made to all PSAPs

### Service Interruptions:

- None reported.

# **WEATHER OF CONCERN**

## **Weather of Concern**

Northern California: Dry and cooler weather is expected this week with high temperatures slightly above normal. Hot weather returns again next weekend with breezy northerly wind.

Southern California: For southeastern California, temperatures closer to seasonal normal will prevail today. However, another warmup will quickly materialize through the middle of the week with high temperatures forecast to be near 110 degrees across the lower deserts.

### **Weather Advisories, Watches, and Warnings currently active in California:**

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca>

### **Active Weather Warnings, Watches and Advisories by County:**

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

## WEATHER SYNOPSIS BY REGION

### **NORTHERN CALIFORNIA**

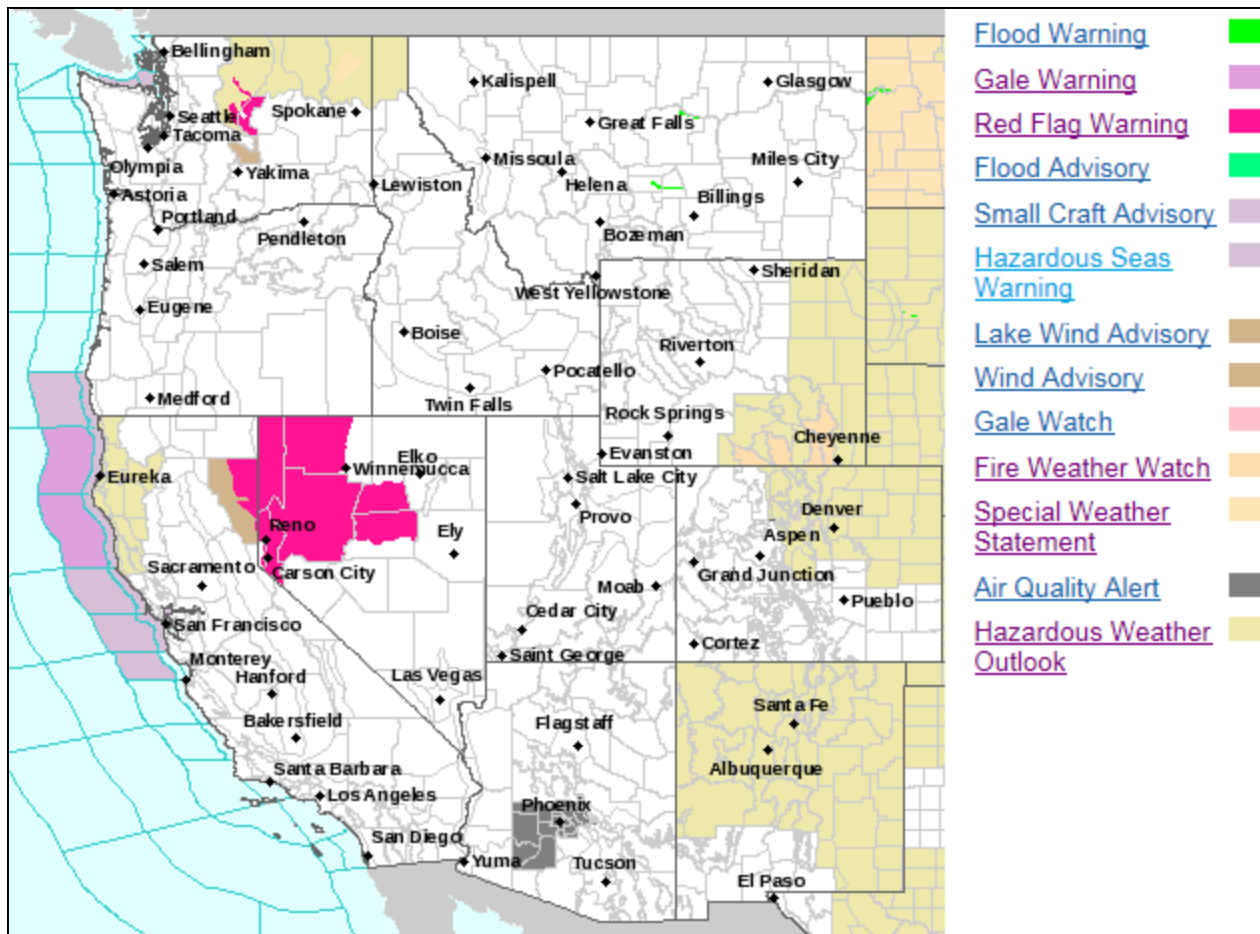

An upper level trough in the Pacific Northwest will help continue the cool delta breeze into Northern California. Daytime highs in the Valley will be near normal through Friday. Daytime highs will be cooler with highs in the low 80s near the Delta to mid 90s near Redding, thanks to the Delta Breeze. Look for possible triple digit heat to return by Saturday, when hot weather returns again next weekend with breezy northerly wind.

### **SOUTHERN CALIFORNIA**

A ridge of high pressure will allow for afternoon temperatures to warm slightly through mid week then cool slightly as an upper level trough moves into the west coast through this weekend. As for southeast California, temperatures closer to seasonal normal will prevail today as high pressure has temporarily weakened. However, another warmup will quickly materialize through the middle of the week with high temperatures forecast to be near 110 degrees across the lower deserts.
